

OC Human Relations

Building community by fostering respect, resolving conflict and pursuing equality

Be a part of creating safe, respectful and inclusive schools, workplaces and communities.

At OC Human Relations we're passionate about making Orange County a better place for ALL people to live, work, go to school and do business.

Building community is not always easy, but we do it by fostering respect and mutual understanding, addressing bias and prejudice, resolving conflict and developing diverse leaders.

Since 1971 we've been bringing together diverse people to solve today's critical human relations issues.

Our ever-growing relationships and long-standing, trusted community partnerships help us build bridges of respect between diverse people in Orange County, especially in times of conflict.

Our expertise in addressing prejudice, discrimination and conflict through collaborative and inclusive efforts is the key to developing successful leaders.

We guide, support, train and empower leaders of all ages from schools, neighborhoods, businesses, government, law enforcement, educational institutions and community groups.

Together we can create an Orange County that...
